AUTHOR Reveron, Wilhelmina W.
TITLE Black Americans: A Comprehensive Bibliography.
PUB DATE [88]
NOTE 51p.
PUB TYPE Reference Materials - Bibliographies (131)

EDRS PRICE MF01/PC03 Plus Postage.
DESCRIPTORS Black Dialects; *Blacks; Cognitive Development; *Communication Disorders; *Cultural Traits; Evaluation Methods; Information Sources; *Language Acquisition; *Language Tests; Sociolinguistics; *Speech Improvement

ABSTRACT

A bibliography on Black Americans contains over 450 citations of articles, papers, monographs, and books in seven categories: culture (language and customs); normal speech and language acquisition (theoretical framework, mother-child interaction, language community, form, content, usage, cognitive development); sociolinguistics (issues, dialect features, code-switching, language community, attitudes, sign language dialects); communication disorders (incidence and definitions, orofacial anomalies, articulation disorders, fluency disorders, functional language disorders, neurological disorders of speech and language, voice disorders, hearing disorders, assessment, treatment); assessment (issues, test validity, reliability, and standardization, tests, nonstandard approaches, language assessment, hearing assessment, cognitive assessment, test environment, training); treatment (conceptual framework, issues, role of the speech-language pathologist, training, treatment approaches, issues in education, materials); and bibliographies.
